

Taller de dibujo de isométricos seccionados – Nivel básico-Intermedio

Interprete el juego de vistas en tercer cuadrante proporcionado y dibuje el isométrico seccionado y la vista frontal seccionada, teniendo en cuenta la línea de plano de corte A-A.

The image displays six sets of technical drawings, each labeled with a number from 1 to 6. Each set consists of three views: a front view, a top view, and a sectioned view. The drawings are presented on a grid background. Each set includes a cutting plane A-A, indicated by arrows and the letter 'A'. The parts shown are:

- 1:** A rectangular block with a central circular hole and a semi-circular cutout on the top surface.
- 2:** A rectangular block with a semi-circular cutout on the top surface and a rectangular slot on the side.
- 3:** A rectangular block with a rectangular slot on the top surface and a circular hole on the front face.
- 4:** A rectangular block with a complex stepped top surface and a rectangular slot on the side.
- 5:** A rectangular block with a complex stepped top surface and a rectangular slot on the side.
- 6:** A rectangular block with a rectangular slot on the top surface and a rectangular slot on the side.
